

The Bird Sanctuary - Species list 2020 - 2024

The following tables list the species that have been recorded in the Sanctuary since the beginning of 2020. Some sections give the most recent year of sighting, others (particularly flora, fungi and insects) are cumulative. Those species recorded as being present are indicated as follows: V = vegetative, F = flower, S = seed, X = sighting (or heard or signs or otherwise present), C = caterpillar, D = dead, s = species. If you note any other species, please add to the list. Jonathan Shanklin (j.shanklin@bas.ac.uk).
